Mr Salvatore Capizzi
Winnipeg Table Hockey League
Winnipeg MB

Dear Mr Capizzi,

Please take to heart the difference you are making!

As an event organizer, along with the fundraisers and volunteers who generously support Manitoba's cancer patients, you are part of an incredible group of individuals committed to making real change happen in our community.

Every day someone hears the words you have cancer and lives of patients and their loved ones are forever changed. You have taken action to help those touched by a cancer diagnosis and we are so grateful.

Your donation raised through the *Winnipeg Table Hockey Tournament* in support of CancerCare Manitoba Foundation enables CancerCare Manitoba to engage in leading-edge research, clinical trials and provide the very best patient care.

Supporters like you, and those who took part in this event, are critical in the fight against this formidable disease. With your help there can be more tomorrows for those receiving a cancer diagnosis today and in the future.

On behalf of everyone at CancerCare Manitoba Foundation – especially the patients we serve – thank you.

Gratefully yours,

Sherelle Kwan
Community Events Manager
CancerCare Manitoba Foundation

Thank you so much for this kind donation! It's pretty great to say playing table hockey can help fight cancer!

All funds raised stay in Manitoba.

Fall 2020

Dear Mr Capizzi

Your steadfast commitment has remained constant despite the tremendous uncertainty in all our lives these past six months. Manitobans affected by cancer are so fortunate to have you in their corner.

It is my privilege to share with you - our valued champion - a copy of CancerCare Manitoba Foundation's Impact Report for the year ending March 31, 2020. Thanks to your passion, the Foundation was able to grant \$7.104 million to CancerCare Manitoba this past year. Your event and others like it helped raise a record-setting \$2 million and positively impacted individuals from all walks of life in more ways than I can count.

The funds you raised were dedicated to all facets of cancer control and care in our province, including prevention, early detection, world-class research and treatment, and enhancing the patient experience. In this year's report, we are honoured to highlight how your commitment helped make a Canadian first possible, advanced local cancer research and most importantly, helped people like John and Peggy on their cancer journeys.

My sincere gratitude for your kindness and dedication to improving outcomes for our province's cancer patients.

With appreciation,

A handwritten signature in black ink that reads "Annitta Stenning". The signature is written in a cursive, flowing style.
